INSTALLATION INSTRUCTIONS FOR LBRGLSCVR9800 SERIES NARROW HEAD LBR CONCEALED VERTICAL ROD PANIC EXIT DEVICE FOR GLASS DOORS

1. PREPARE DOOR

- Use Strike Furnished
- Screw top and bottom rod into inner chassis, and insert this assy into the door and fasten inner chassis in place with filler HD and flat HD machine screws
- Adjust top and bottom rods
- Position and fasten top and bottom chassis in place
- Before hanging door, fasten bottom plate to door
- If Esc Lever trim is used, mount it before mounting main chassis

2. MOUNT ROD & CHASSIS

- Before locating mounting plate and leveling rail assembly, attach rail to main chassis with two #8-32 x 3/8" truss head screws, do not tighten yet

3. MOUNT RAIL ASS'Y

- Determine cut-off dimension “X” by subtracting 1-1/8" from dimension “Y”
- Depress arm into rail opening and slide rail onto chassis
dimension “X”

4. ATTACH COVER

- Attach cover to chassis with four cover screws

5. OPERATION CHECK

- Depress pushrail, bolt should retract into door
- The latch retractor button should pop out and hold the bolt retracted until button is depressed
- If button does not pop out, remove top chassis and screw the top rod in one turn. Replace top chassis and repeat above operation
